

Statistics on Rare Cancers from the SEER Program

Benjamin F. Hankey, ScD
Chief, Cancer Statistics Branch
Surveillance Research Program
DCCPS, NCI

List of Rare Cancers

- Adrenal Gland
- Brain
- Corpus Uteri
- Esophagus
- Eye including Orbit
- Hodgkin Lymphoma
- Non-Hodgkin Lymphoma
- Kaposi Sarcoma
- Kidney and Renal Pelvis
- Leukemia
 - Acute/Chronic Myeloid
 - Acute/Chronic Lymphocytic
 - Other
- Liver
- Myeloma
- Head/Neck
 - Nose/Nasal Cavity/Middle Ear
 - Oral Cavity and Pharynx
- Ovary
- Stomach
- Testis
- Thyroid

Handout

- Some Statistics by Cancer Site
 - Adults 20+ year of age
 - Age-adjusted (2000 US Standard)
Incidence/mortality rates
 - Recent period (1998-2002)
 - By age
 - Trends (1990-2002)
 - Relative survival by stage (1995-1999)
 - Annual number of cancers by race (2002)

Other Services From SEER

- Access to Public Use File
- Training in use of SEER*Stat
 - Frequencies
 - Incidence/mortality rates/trends
 - Survival rates
 - Prevalence rates
 - Analysis of multiple primaries
 - Case listings
 - Incidence-based mortality
- Other software
 - Join Point Regression
 - Lifetime risk
- Analytic support
 - SEER staff to provide analysis on specific topics
- Facilitate collaboration of/with SEER registries
 - Bi-monthly videoconferences with PI's
 - Annual meeting of PI's – Program Management
 - Annual meeting of PI's – Research Topics
